Our Mission
We touch the lives of people in our community by providing transitional housing, practical tools and helpful resources to all to achieve self-sufficiency.

Our Vision
Our vision is to be an outreach arm of strength and support to the less fortunate in the community, to improve the lives of those that are affected by adversity, and to empower the less fortunate with life-changing skills for future success.

CTI Serves
Community Touch serves people in the counties of Fauquier, Culpeper, Rappahannock, Orange and Madison, as well as surrounding regions in Virginia.
Letter from our Director

We are living in a time when people need help more than ever: due to Covid-19 jobs have been lost, families lack food, and homelessness is growing. Community Touch, Inc. serves as a beacon for the homeless, hungry and less fortunate in our community. During this Covid-19 crisis, our services for food have increased by 300 percent, and the homeless prevention and rapid re-housing programs have grown as well because we are paying deposits and rent for homeless clients.

We are paying hotel stays for displaced families and for displaced single people who have contracted the Covid-19 virus. Our services in the five-county region of Fauquier, Culpeper, Madison, Orange and Rappahannock are being utilized to combat the challenges in life that people are facing every day.

We continue to provide people with assistance, care and compassion to help them survive this devastating pandemic.

Our objective is to make sure that every family we serve has food on their table to eat. We will distribute household furniture and clothing to families who have moved into a residence but lack the necessary means to enjoy everyday home amenities. We will provide shelter for the homeless during the cold winter months and allow children to safely learn in our daycare and preschool facility.

The challenges ahead of us are great, and we tread lightly in these uncertain times, but we believe that we can continue our work to positively affect lives every day. A special thanks to our donors, fellow non-profits, businesses, churches and volunteers who continue to give their time, talents and resources to impact lives. I would also like to thank our current CTI Board of Directors and staff who help make this non-profit what it is, and who enable CTI to make a positive impact in the community.

We have compiled our first annual report to demonstrate our transparency as an organization. We handle our donor’s funds with proper fiduciary responsibility and our Board of Directors along with senior staff operate the organization with excellence. Thank you for your ongoing interest and support.

Best Regards,

Tyronne Champion

A Mother’s Story

A mother and her two children had been homeless for several years. Some of her children were placed into foster care, because of bad choices the mother admitted to making. This mother came to Victory Transitional Housing (VTH) feeling hopeless, sad, and rejected because of a lack of support. She was extremely sensitive, insecure and negative towards life. She seldom smiled and she cried a lot. She was unemployed at the time and had a lot of debt. Upon entering the VTH program, this mother was assigned a financial mentor. The mentors work with the residents to help them meet their personal financial goals and teach money management as well as saving and debt reduction practices. The mother obtained employment, developed a budget for the first time, and paid off some of her debt. Her accomplishments put a smile on her face, and she had hope again. After several months, this mother was approved for permanent housing for her and her children. Community Touch helped her family move into their new home and provided household items from Noah’s Ark Outreach. During a follow-up call, the mother informed CTI that she and her children are doing well. She expressed gratitude for all of the help that she received at Victory Transitional Housing.

The CTI mentors work with the residents to help them meet their personal financial goals...

A Father’s Story

A single father and his two children became homeless after a bad separation from his wife. He and his children were sleeping on the floor in the back room at his place of employment. A customer noticed that the children were always with the father at work. The customer told the father about the Victory Transitional Housing program at CTI. Shortly after, the father and his two children moved into the VTH program. The VTH case worker discovered that the children had serious underlying emotional issues, such as abandonment, rejection, and anger, after the mother left the home. The father was very depressed as well. A service plan was put in place to get the necessary counseling support that they all needed. Unfortunately, the father lost his job. The case worker revamped his service plan and found him some helpful community resources such as the DARS program (which is a vocational rehabilitation service) and daycare at Caring for Angels which is located on the CTI and VTH campus. This single father was determined to raise his children, go to school and find a job – against all odds. After an extended stay in the VTH program, the father felt that he was ready to move out on his own. The VTH case worker found affordable housing for him and his children. VTH helped him with a security deposit and the first month’s rent. CTI helped him to move his family into their new home and provided household items from Noah’s Ark Outreach. The father and his children are doing well and are grateful for the services that Community Touch was able to provide to their family.

A service plan was put in place to get the necessary counseling support that they all needed.
Victory Transitional Housing (VTH)

Established in 2003, VTH is a one-year program that offers transitional housing to homeless men, women and children with a broad range of needs. VTH provides an opportunity for homeless individuals to stay in the forty-bed facility up to one year, at a very low program fee. Every resident will work with a case manager to establish a personalized service plan for success and to obtain permanent housing. The residents are required to work with a financial mentor, designed to help each resident with savings, money management and debt reduction. The staff at the VTH empower the residents to live a life of self-sufficiency during and after they leave the program. This is accomplished by promoting productive activities, as well as providing encouragement, education and support. The VTH program collaborates with other agencies in the community to assist the individual in attaining the most effective, beneficial services available.

CTI Outreach Programs

Clara’s House Food Pantry

Since its inception Clara’s Faith House Food Pantry has fed thousands of children and adults. The food pantry provides food for the hungry in Fauquier, Culpeper, Rappahannock, Orange, Madison and surrounding counties. The food is purchased and donated from the Blue Ridge Area Food Bank and other donation sources. Clara’s Faith House Food Pantry solicits and stores food products donated by supermarkets, wholesalers, USDA food, food processors and local farmers. Many people and businesses in the community enjoy making donations to the food pantry as well. Donated food is redistributed to the less fortunate and nearly half of the food recipients are children. When a child does not eat properly, they lose concentration, are less productive and suffer from malnutrition. Last year CTI fed over 2,473 people through this outreach.
Noah’s Ark Outreach
CTI’s goal and belief is that it is essential for people to possess important necessities which provide peace and stability to the family. Many community members in need use Noah’s Ark Outreach to obtain business attire for job interviews, rugged clothing for outdoor labor, dresses and other appropriate work attire, as well as toddler or children’s clothing for school. Noah’s Ark Outreach has furnished whole households who suffer the tragedy of their house burning down or the misfortune of divorce. Noah’s Ark Outreach accepts donated professional, business, outdoor, and children’s clothing for the underprivileged. We also accept washers, dryers, refrigerators, stoves, microwaves and other household items that will assist the less fortunate in having their needs met. Last year, CTI served 880 people through this outreach program.

Noah’s Ark Thrift Store
In April 2009, the Noah’s Ark Thrift Store took shape in a Bealeton, VA shopping center as an effort to meet the needs of low to middle income community members who seek to purchase affordable furniture and clothing. It has since moved to a Marshall, VA shopping center. Items available include donated furniture, in-season clothing and shoes, and household items such as couches, loveseats, dressers, microwaves, washers and dryers, small and other misc. items. All proceeds from the retail store go towards the mission and vision of Community Touch. The store is operated by paid and volunteer staff and managed by Community Touch, Inc..

Caring for Angels Preschool & Daycare Center (CFA)
Established in May 2016, CFA is a licensed daycare that offers top-quality care to children ages 2 -12 years old, with affordable rates. CFA provides a safe and clean environment where children receive individual love and attention. CFA also offers a variety of academic programs and a curriculum for the nursery, preschoolers and virtual learning classrooms, to meet the children’s academic needs. CFA strives to provide a nurturing and educational atmosphere, where our children can grow independently through games, songs, activities and music to enhance their learning! CFA teachers provide loving, creative, fun and interactive lesson plans where they “learn, grow and have fun.” CFA adheres to the CDC guidelines established for daycare centers.
